# RULES OF GOLF CLINIC

- ③ *The Rules of Golf are often looked upon as being extremely detailed and boring. Most golfers are quite confident that they know the rules until they are actually faced with the situation and doubt starts to set in. Enquiring with friends and flight mates only serves to confuse the situation as nobody is really sure of the correct procedure. Heartland Golf Schools has identified the most commonly occurring rulings and organized them in a fun and interactive visual presentation. We will help your group remove all doubt as to proper rulings and procedures so that they can play more confidently by the rules, speeding up play and increasing overall enjoyment in their game.*
